

PC SOLUTIONS

- Enclosures with PC front panels with innovative design
- PC enclosures with sliding shelf
- Workplaces for industrial PCs

CHARACTERISTICS/DELIVERY

- ARETA structure with rear door or panel
- complete PC front panel ATPC (see specification on next page)
- monitor support
- CPU support

PAINT FINISH

- ETA standard epoxy polyester powder coating.
- structure: colour RAL 7035 smooth finish
 - door or rear panel: colour RAL 7035 textured finish.
 - roof, floor and PC front panel: RAL 7025 textured finish.
 - front panels and tilting shelf, aluminum grey with textured finish

PROTECTION RATINGS

- IP 55.

MAIN ACCESSORIES

ATFI side panels (see page 44)

plinth for Areta pc (see page 131)

(1) WTM0000600 monitor support

(2) WTPU000600 CPU support (see page 128)

Complete internal fitting with the monitor support WTMO and the CPU support WTPU.

** PC FRONT STRUCTURE ATPC

CHARACTERISTICS/DELIVERY

The PC front panel includes:

- frame made of 15/10 thick sheet steel
- silk-screen printed clear door for monitor vision, made of sheet steel with thermoplastic coating
- tilting shelf to fix the keyboard, made of 15/10 thick sheet steel
- lower door made of 20/10 thick sheet steel
- clear Plexiglas door with seal to protect and access the CPU
- cable gland for keyboard and mouse cables
- bi-adhesive tape for keyboard installation
- seal and mounting accessories
- pair of structural uprights

PAINT FINISH

Frame: RAL 7025 textured finish.

Front panels and tilting shelf: dark grey textured finish.

For painting different from RAL 7035 textured finish, rear panels and tilting shelf will remain dark grey textured finish.

Colour: RAL 7025 textured finish.

For PC cabinet mounted in suite a standard plinth can be used, if necessary. (For codes see page 217).

ARETA PC PLINTH holes for floor fixing

WHEEL WTRU-001

High quality polyamide wheel. Load capacity 80 kgs for each wheel. Supply includes 4 pieces, (2 wheels with brake, 2 rotating wheels).

PCCO ENCLOSURE FOR MONITOR AND CPU

It can incorporate a PC including central unit, monitor and keyboard. As an option, it can be provided with a sliding shelf to use the mouse. The monitor is protected by a transparent silk-screen printed panel made of sheet steel with thermoplastic coating. A transparent door fully protects the CPU from external agents also with lowered tilting cover.

CHARACTERISTICS/DELIVERY

- Manufactured from 15/10 pressbent sheet steel.
- removable rear cover made of 15/10 sheet steel
- silk-screen printed clear door for monitor vision, made of sheet steel with thermoplastic coating
- tilting shelf to fix the keyboard, made of 15/10 thick sheet steel
- adjustable monitor support made of 20/10 sheet steel
- CPU support made of 20/10 sheet steel
- clear door to protect and access the CPU
- cable gland for keyboard and mouse cables
- bi-adhesive tape for keyboard installation
- supporting column PCSU
- supporting base PCBA with levelling feet

PAINT FINISH

ETA standard epoxy polyester powder coating.
 Colour: RAL 7035 textured finish.
 Door and sliding shelf: aluminium grey textured finish.

PROTECTION RATINGS

IP 55.
