

Convincing Solutions

Easy handling

Owing to divided double locking levers.
For dead-easy operation.

In no time

Central locking system - advantageous if space is lacking since locking lever is placed at the narrow housing side.

NEW

Variety

Different cover types - now also available as self-closing versions
Choose from two different materials - plastic or aluminium - and from different functions:
- loose or hinged, self-closing/not self-closing.

Quicker, safer

Split-second mounting with screwless connection technique (insulation displacement technique) in series A3.

You're free to choose

Decide on your type of connection technique:

1. Crimp type, 0,5 - 4 mm²
2. Screw terminal, 0,5 - 2,5 mm²
3. Screwless connection, (insulation displacement) 0,5 - 2,5 mm²
